Forecast for Sunday 27 Dec 2020

Weather: A bitterly cold day with bright intervals and snow showers, but mainly falling as sleet below 200m. Some showers could be heavy with hail and a low risk of thunder.

Chance of cloud free mountain/hill tops above 600m: 50%. Cloud bases highly variable but occasionally lowering to around 400m in showers. Best chance of clear tops over eastern hills.

Visibility: Fast-changing as showers move through. Occasionally down to a few hundred metres or less in low cloud and snow showers. Spells of good visibility between showers.
